PLANNING SERVICES GOSPORT

26 SEP 2017

Paul Kemp

23<sup>rd</sup> September 2017

Dear Sir/Madam,

please find enclosed 93 signatories to a 5 point comments form as a common and much simplified response to the town centre and waterfront proposals contained in the SPD.

They are completely unsolicited, being in part from local disabled residents and those without internet access, a display in our premises has also attracted some of the signatures from customers that had not heard of the SPD prior to seeing the display..

The display contained the common form for signature, also the council provided returns document, guidance has been provided on all means and positive or negative forms of response, many chose to use the standardised return form, a great number remarked that it was cumbersome, and expressed grateful thanks for our supplied document the statements contained on which met fully with their wishes.

Where compliance has not been met, such as non residency or failure to provide an address the signatures have been voided by lining through.

We respectfully request that these comments are recorded for inclusion in the consultation process on behalf of the signatories in accordance with the 5 stated points.

Signed

Paul Kemp

# In Response to the Gosport SPD Proposals

We the undersigned require points 1-5 below to be accepted as our personal responses to the town and bus station area proposals.

- 1) The site of the bus station should remain in the ownership of the town and only be used to provide amenities for the public.
- 2) Any development on the site should therefore be strictly non-residential, endeavouring to maximise unbroken harbour vision from all points, streets and approaches, the proposed building of circa 95 apartments or similar is therefore unacceptable.
- 3) Far more short stay parking, particularly for the disabled, to improve access to the East end of the town is required.
- 4) The Falkland Gardens should remain just as they are, they are not broken and therefore do not need any costly fixing.
- 5) Any proposed reduction in parking spaces across the entire town area is unacceptable and will further reduce footfall.

PLEASE DO NOT SIGN MULTIPLE TIMES - RESIDENTS OF THE GOSPORT PENINSULA ONLY
