Dear Gosport Council,

I recently spent well over an hour filling in your online form only to find that on submission it failed and I lost everything that I had written. I read on Facebook that this was something you are aware of and are trying to rectify. In the meantime, however, you will accept comments via email.

It's short and sweet but I really hope you will still take account of my views even though it is not in your preferred format.

1. Please do not build anything high rise on the waterfront area. Gosport looks, open, green and inviting from the harbour and very different from Portsmouth.
2. Definitely agree that the bus station needs redevelopment, but low rise and not residential.
3. Don't think anything should change in the Trinity Green area.
4. Whilst not to everyone's taste, the two tower blocks at the waterfront are already icon buildings and the artwork on the sides is quite unique. (And no I don't live there)
5. Please don't reduce any parking spaces. There is no point in making Gosport attractive to visitors and residents if you can't park anywhere.
6. Make the High Street have character frontages so that it is more like Chichester and not a mini , cheap version of a Gunwharf.

Regards

Hazel King
