2.

C18. Three-storeys and basement, plum coloured brick with red brick dressings, moulded stone cornice resting on brick dentils, plain parapet with moulded stone coping. Old tile roof. Two chimney stacks with moulded stone cappings. A 5-bay front, the centre bay projecting slightly. All windows have stone cills and red brick shaped aprons. The second floor windows have Venetian shutters; glazing bars have been altered in most windows. A one-storey extension to east, with one door and one window and modern 2-storey west wing. A 4-panelled door (C19) in doorcase consisting of plain surround, fluted Doric pilasters, broken entablature with cornice carried across and broken forward over centre of door. The moulding of the necking of the pilasters is extended to form an ogee arch over door supporting the centre break forward in the cornice.
