Issue	Figure	Assumptions
Developable area	0.08 ha	Based on whole site.
Local area density	Medium	45dph
Development density	25dph	Density of developable area.
Capacity for dwellings	2	Based on initial visual assessment.

Concluding comments	The sites shape and size limits the level of development achievable. Given the sites elongated shape it would likely be difficult to fit more than five dwellings on the site. Development would need to consider impacts on existing properties which enclose the site.
Concluding actions	No further action.
