Conclusion

Suitable	Available	Achievable
-----------------	------------------	-------------------

Issue	Figure	Assumptions
Developable area	0.03 ha	Based on two sites.
Local area density	Medium	
Development density	30dph	Density of developable area.
Capacity for dwellings	1	Based on initial visual assessment.

Concluding comments	The sites are small areas between existing dwellings. The layout of the sites limits the level of development achievable to less than the SHLAA threshold. Development would be in close proximity to existing dwellings and unlikely make an attractive built environment.
Concluding actions	No further action.
