Issue	Figure	Assumptions
Developable area	0.06 ha	Based on whole site.
Local area density	Medium	40dph
Development density	30dph	Density of developable area.
Capacity for dwellings	2	Based on visual assessment.

Concluding comments	The site layout limits the level of development achievable. The site has been assessed as unable to provide 5 or more dwellings. The site provides garages and parking to local dwellings, thus any future development would need to ensure local parking requirements are met. To do so, would likely limit the site to one of two dwellings,
Concluding actions	No further action.
