Issue	Figure	Assumptions
Developable area	0.4 ha	Based on whole site.
Local area density	Medium	40dph
Development density	10dph	Density of developable area.
Capacity for dwellings	3	Based on initial visual assessment.

Concluding comments	The site has the potential to accommodate a limited number of new dwellings provided that local parking requirements could be addressed. That said, the site has been assessed as unable to accommodate 5 or more dwellings. Any potential future development would need to provide the parking capacity for existing dwellings and proposed, and carefully consider neighbouring amenity.
Concluding actions	No further action.
