Your representation (1)

The draft Gosport Borough Local Plan 2038 contains a vision, objectives and policies with explanation text. Please use the boxes below to let us know what you are commenting on and whether you support or object along with your comments.

Paragraph/Policy Number: Local plan 2038

Support or Object? Object

Please summarise why: There is a major need to address the transport links in and out of gosport which currently do not withstand the current pressures. The Titchfield stubbington bypass will ease this slightly, however the traffic calming features are a significant problem to flow in the town. I still find it shocking the Newgate lane road was never a dual carriage way. Yoy also need to work with Fareham to ease the bottle neck. The traffic is a significant problem. Which is effecting the recruitment of GP's to the area, the high Street needs investment, investment in local parks make the town attractive to families, then consider the new developments. I am not against the plans, however it is import to get the infrastructure in place before commencement.
