Subject: Waterfront Development

To whom it may concern, I have heard all sorts of issues about building accommodation above the new bus station, and I know we really need them. Without car parking Gosport will die so why not be looking outside the box and developed a multistorey car park on the site of the old out door swimming pool. I mean a proper car park about 8 or 9 stories high. I was born in Gosport and have lived here all my life and have only seen the demise of the town over the years. Unless it is imperative that I go to Gosport town for an appointment I will always shop out of Gosport . Even the advent of the E buses makes it easier for me to shop in Fareham.

Yours sincerely
M M Patterson
