Subject: Bus station and Falkland Gardens Development

I totally disagree with the proposals being offered. It will block the sun from the gardens and will only be available for the wealthy off. You let Aldi and McCarthy stone build on the waterfront and we have lost all that. I think it is a disgrace, the town centre is very rundown, the "new residents " will not be ploughing money into Gosport as there are no shops there. It will only benefit the council i.e. Council tax. Sort out Clarence Yard first.
