1. Do you have any comments regarding the Vision?	Overall, I agree with the concept that there is a lot of potential to develop something special for Gosport. However, this has to compliment, rather than compete with Portsmouth, Gun Wharf in particular, Fareham and Southampton. So Gosport has to provide something that the others don't have. But even if this is the case, no one will want to visit if they get stuck in the traffic on the A32 and then can't get a convenient parking space once here because the car parks have been built on.
2. Do you have any comments regarding the strengths of the Waterfront and Town Centre area identified in the SPD? (eg. agree, disagree, any additional ones?) 3. Do you have any comments regarding the weaknesses of the Waterfront and Town Centre area identified in the SPD? (eg. agree, disagree, any additional ones?) 4. Do you have any comments regarding the opportunities of the Waterfront and Town Centre area identified in the SPD? (eg. agree, disagree, any additional ones?)	
5. Do you have any comments regarding the challenges of the Waterfront and Town Centre area identified in the SPD? (eg. agree, disagree, any additional ones?) Theme A: Creating an Attractive Townscape	Plenty of open spaces, green spaces, with a large plaza at the water front for all to enjoy. No huge out-of-scale buildings to dominate and ruin the looks of the place.
Theme B: Creating New Employment Opportunities	Needed.

Theme C: Enhancing the Shopping and It seems to me that what's missing from these areas is a boutique/caf? culture feel - there's no point in doing what every other town has, because that won't attract tourists and visitors, when other towns/areas are more easy to access, often with free parking. So I think the focus should be on encouraging smaller boutique shops, hobby shops, interest shops, antique shops, art galleries, heritage elements - maybe along the lines of some areas of Brighton, such as The Lanes. Theme D: Providing New Homes Far too many proposed, it almost seems like the whole vision is about housing, with other things added. The idea of having at least 700 more dwellings right in the furthest point into Gosport, all trying to get out and in via the A32 and other roads around the town is a recipe for disaster - residents have had quite enough of the congestion and lack of any vision or action to resolve the road problems they've been plagued with for decades. In fact I'd go as far as saying that the road infrastructure should be the vision for Gosport and once this is in place, concentrate on the waterfront and other development. Theme E: Improving Public Realm and Green Infrastructure Provision Theme G: Managing Flood Risk Theme H: Providing Appropriate Infrastructure Theme J: Creating a Healthier Town Theme J: Creating a Healthier Town Theme B: Creating a Healthier Town Theme B: Station and Falkland Gardens Falkland Gardens to remain as they are. Bus station needs to be the maximum of open and green spaces left open and made available. New large open plazas. The Bus Station and Falkland Gardens Falkland Gardens to remain as they are. Bus station needs to be rethought - but what's not needed is any overly large buildings to ruin the view of the waterfront. Gosport Waterfront North of Mumby Road Royal Clarence Yard and the Retained Area North of the High Street The High Street and associated areas South Street Trinity Green area To be kept open - no housing here at all - it woul	Thoma C: Enhancing the Channing and	It sooms to mo that what's missing from those areas is

8 Is there anything in the SDD that	·
8. Is there anything in the SPD that particularly concerns you and why?	Yes - the lack of forethought to road infrastructure and too much housing - this shouldn't be left in the hands of developers whose only interest is in getting as much waterfront apartments in as possible. This should be about encouraging tourism and investment in Gosport and giving something back to the residents of Gosport who've had to put up with the second best of everything for as long as they can remember - roads, shops, leisure facilities, cinemas, bars, restaurants, etc. Also, the idea of building on car parking facilities - the idea of having a variety of car parks is that people use them in a variety of ways to meet particular needs. this is particularly relevant to older people, disabled people and those with young children. Also, any concept of making huge waterfront buildings that would ruin views of the harbour and waterfront and shade the Falklands Gardens and High Street or other new open spaces that are part of any proposed design.
9. Are there any other sites within the	
Waterfront and Town Centre area	
which have potential for	
development?	
10. Please can you give any	
suggestions of what else the Council	
should consider to include in the final	
version of the SPD?	
11. Please include any comments you	
may have
