Subject: The Waterfront development

Dear Sir/Madam,

Please take a look at the Skylon Tower at Niagara Falls in Canada, <http://www.skylon.com/>
Something similar somewhere along the waterfront in Gosport could be a very good visitor attraction with specular views across the Harbour, Portsdown Hill, the Solent and the Isle of Wight. Although a tall building it is not a block of flats and has a narrow column which would not block out peoples view at ground level. I visited the Skylon Tower back in the 1980s and had a very good meal and it takes 1 hour to rotate 360 degrees.

Regards Alan
