1. Do you have any comments regarding the Vision?	1.I am fully against the idea of redeveloping the Bus Station and putting circa 95 residential dwellings on top. There is no need for a bus station? interchange. Just a lay-by long enough for two buses with descent bus shelters is all that is needed. The whole site can then be used to create jobs and attract people and residents to the tow area. I do not want the Falkland Gardens touched in any way, it is a tranquil beautiful Memorial Garden. I do not want any parking spaces removed from the town centre area. We want to encourage visitors and if we don't allow for growth of visitors we are shooting ourselves in the foot.
2. Do you have any comments regarding the strengths of the Waterfront and Town Centre area identified in the SPD? (eg. agree, disagree, any additional ones?)	I can see no strengths in this at all, there are no mention of any increase in dentist or doctors let alone schools. Gosport's services are at breaking point, who in their right mind would stretch them further. And then we get the lack of change to the roars. The Stubbington by-pass is not going to change the A32. The majority of people using it are either going to Fareham or heading East on M27.I wonder how many of the developers are freemasons.
3. Do you have any comments regarding the weaknesses of the Waterfront and Town Centre area identified in the SPD? (eg. agree, disagree, any additional ones?)	Putting Residential dwellings on the bus station site is a total and utter waste of a prime piece of land. This land belongs to the people not the council or councillors, you need to do a proper consultation with effective marketing which this one has not had. Most towns would love to have a prime piece of land to develop for the good of the town, to attract visitors and residents to the town. We don't want Hook Towers or any similar high rise residential development on this land. I am opposed to the construction of more than 4 stories in height and a maximum of 25% of the floor area/volume however you measure it to be used for residential development Any tower block is going to cast shadows over the Falkland gardens. Make it feel claustrophobic and spoil a world class view

4. Do you have any comments regarding the opportunities of the Waterfront and Town Centre area identified in the SPD? (eg. agree, disagree, any additional ones?)  5. Do you have any comments regarding the challenges of the town other than to laugh at the wasted opportunity. This land must be used to build something that will attract visitors and residents to the town and provide employment. Start an open competition to see what ideas there are out there.  5. Do you have any comments regarding the challenges of the Waterfront and Town Centre area dientified in the SPD? (eg. agree, disagree, any additional ones?) Theme J: Creating a Healthier Town  The Bus Station and Falkland Gardens	Congestion on all the roads will get worse with more residential dwellings being built, pollution will be worse for everyone, need to cut down traveling by build dwellings in more sensible parts of the town, nearer the major roads. Need to create more jobs rather than homes to cut the traffic on A43 and other roads  1 100% object to the building of a new bus station or interchange. All that is needed is a lay-by long
	enough for two buses with good bus shelters alongside. The bus drivers can have their breaks at Hoeford or Fareham. I am 100% against the construction of any building more than 4 stories high on the waterfront I am 100% against more than 25% of any building be dedicated to residential dwellings I am 100% against changing the Falkland Gardens in any way, it is a memorial garden and a lot of friends and families of those who fought in the Falkland's war use that garden to remember and reflect. They don't want children running around and screaming etc. There is a very good children's play area in Walpole park, and let's face it its less than the distance you have to walk to find a toilet now. This is not a threat but a promise, if the Falkland gardens are changed or if there are plans submitted for planning consent for large volumes of residential dwellings there will be protest marches and media involvement. Social Media is such that people can be rallied very easily so The Council and councillors need to listen to what the residents want, the vast majority of whom are not freemasons.
